AGENCY UPDATE

A brief look at Chaplaincy Health Care's progress over the past year.

by Gary Castillo, Executive Director

It's hard to believe it's already June – the half-way point of 2017. Before the entire year slips away, I wanted to update you on the progress our agency has made during the past 12 months and also to thank you for your part in it. Whether you are a donor, a

volunteer or a recipient of our services, we simply cannot do this work without you.

CHAPLAINCY HEALTH CARE

This time last year we had just revealed our agency's new brand. We changed the name slightly, refreshed our logo, updated our website and launched an advertising campaign to increase awareness of all our services. To date, the feedback has been overwhelmingly positive.

HOSPICE CARE

Currently we are serving more patients in our hospice program than ever before. In 2016, we served 969 patients through our in-home program and at the hospice house. Your support insures that no matter where these patients live, they are receiving exemplary spiritual, emotional and physical care.

SPIRITUAL CARE

We continue to serve the need for chaplains at four key locations in our community: Kadlec Regional Medical Center, Trios Health, Tri-City Cancer Center, and the Benton Franklin Juvenile Justice Center, as well as in our own hospice program. Currently, 17 full-time, part-time and per diem chaplains are on staff serving the spiritual needs of our community. Through Clinical Pastoral Education (CPE) we are providing training for those who desire to become chaplains. This past year we offered local training opportunities as well as distance learning to three locations via teleconferencing technology with the St. Vincent's Health Care system in Montana.

PALLIATIVE CARE

This program provides medical in-home support by way of symptom management and education to

those with a serious illness. We provide this care by making home visits when necessary and regularly scheduled phone calls. Currently we are serving 180 patients.

BEHAVIORAL HEALTH

Behavioral Health is helping more people than ever before. Our therapists guide individuals, families, couples and children as they manage change and uncertainty, transform relationships and find new strength. Our service is unique because we serve the Medicare population, we can provide therapy in Spanish and we can make home visits for those who are unable to come to us for appointments.

GRIEF CARE

These services support our hospice families and the entire community. In 2016, we served more than 1,500 individuals and offered 19 grief support groups. A Survivors of Suicide group and a new "First Year and Beyond" drop-in grief support group were added to our list of offerings and have been well attended.

CORK'S PLACE

This is our grief program for children, teens and their families, and it has seen incredible support this past year through monetary donations and volunteer hours. Without this support we could not have increased the size of our groups and served the 57 children and 45 caregivers who came to us seeking help. We are also looking at ways to bring the Cork's Place model into the schools. Southridge High and Delta High have invited us in to work with students after the tragic deaths of two classmates. Just a few months ago, we held our first fundraising event for Cork's Place called the HeART of Healing. It was a huge success raising \$20,000 that will help fund our program to ensure that children and caregivers can get the support and guidance they need at no cost. If you supported that event – THANK YOU!

REPEAT BOUTIQUE

As we mentioned in our spring newsletter, our newest venture – the thrift store – has had great success in its first few months. We have found that not only does it offer a great way to support hospice care, but it also serves as part of the healing

CHAPLAINCY HEALTH CARE

process for those who are donating items belonging to a loved one who has died. We invite you to stop by 22 W. Kennewick Avenue to shop, donate or ask about volunteering.

As you can see, Chaplaincy Health Care is on the move. While seeing the growth in our programs is exciting, it's also proof that our primary purpose of living out God's call to ease suffering and our mission

of serving others with exemplary spiritual, emotional and physical care continue to be our guiding stars. Thank you for trusting us to do this work and for supporting us in so many different ways. 🌱
